Re: Request for priority processing of registration application

Dear Members of the Registration Board,

I am writing respectfully to seek your kind consideration for priority processing of my application for registration. I urgently require registration in connection with a conditional job offer from Lion Rock Mental Health Centre for the position of Mental Health Practitioner.

The centre has informed me that completion of my appointment is subject to my obtaining registration from a local professional body so that my professional qualification can be verified. I have therefore enclosed the conditional offer letter as part of my application materials.

I have also submitted the support letter from my supervisor together with my academic documents, including my higher degree major in psychology at the University of Central London. In light of my training, qualifications, and supporting documents, I sincerely believe that I am well qualified for registration.

As the offer is conditional and time sensitive, I would be deeply grateful if the Board could kindly consider reviewing my application in first priority, or as early as practicable. If at all possible, I would be most grateful to receive the Board's reply no later than 30 April 2026, as this would greatly assist me in responding to the employment timeline set by the centre.

I fully understand that the Board must follow its usual procedures, and I make this request with the greatest respect for the registration process. My intention is simply to explain the urgency of my situation and to ask whether my application may be considered as soon as possible.

Thank you very much for your time and consideration. I would be most grateful for any assistance the Board can offer. Please let me know if any further information or documents are required from me.

Yours faithfully,

James Percy Morgan
